## First Best Practice

- 1. Title of the practice:** Eco-friendly initiatives for Green Campus.
- 2. Objectives of the practice:** The basic objective is to promote environmental awareness amongst students by involving them in various ecofriendly activities in the institution.
- 3. The context:** Protection of environment is an issue of key concern which has permeated all spheres of life. Various environmental problem which are increasing day by day needs serious thoughts for their management.
- 4. The Practice:** Various eco-friendly activities were organized for students, includes competitions like Painting, Slogan writing, Model making, seminar, workshops, lectures etc. through NCC/ NSS, ECO club, energy club, Departmental Societies. Students participated with great enthusiasm and learned various things about how to conserve water, importance of Trees and mitigation of environmental problem.
- 5. Evidence of success:** Students participated with great interest. Painting, poster making showed their talent and concern. Creativity and concern were depicted in scientific models. In the International year of millet (2023), students were trained about the benefit of various millet for healthy living.
- 6. Problems encountered and resources required:** Every activity requires resources. For most of the eco-friendly activities, no extra fund was provided by any government agency. College could manage the funds, through it's own resources.
- 7. Notes:** Educational institutions are the place where students learn about environmental problems and ways and means to encounter them. Students can learn, inculcate the feeling of environmental concern through various activities.
